

## Cell Cycle “Wheels” Project

### 30 points

CATEGORY	10-9	8-7	6-4	3-1
<b>Content/Descriptions</b>	All 4 phases of mitosis are described thoroughly and accurately using bullets. Spelling is correct.	3 phases of mitosis are described thoroughly and accurately using bullets	2 phases of mitosis are described accurately	0-1 phases of mitosis are described accurately
<b>Content/Diagrams</b>	All 4 phases of mitosis have accurate, labeled, and colorful drawings. Spelling is correct.	3 phases of mitosis have accurate, mostly labeled, and colorful drawings.	2 phases of mitosis have accurate drawings that contain some labels and color.	0-1 phases of mitosis are drawn accurately
<b>Overall Attractiveness and Function</b>	Both wheels include a cover sheet and all labels. They are put together with a metal fastener, making them functional. They are exceptionally attractive in terms of design, layout, color, and neatness. Spelling is correct.	Both wheels include a cover sheet and most labels, making them functional. They are attractive in terms of design, layout, color and neatness.	At least one wheel includes a cover sheet and most labels, making them somewhat functional. The wheels are acceptably attractive though they may be a bit messy and lack color.	Cover sheet and most labels are missing, making them not functional. The wheels are distractingly messy or very poorly designed. They are not attractive.
